Dear Sir / Madam,

I only got your newsletter because of a friend who lives in this area - it was not delivered to our Estate (above)

However, I must voice my concerns about being re-housed in a high rise block - I would really not be happy. Also where are they going to put us while all the work is going on? - none of us know.

They have kept us in the dark over so many important issues.

If you know of anything that relates to the housing on Peabody Estate please can you let me know?!

I would really love a ground floor flat with a garden but I think that's a fantasy! or even a bigger flat would be great.

On the other issue I think the underpass in Falcon Road is wet and dirty + disgusting and should be improved

Also I would be so relieved if there were lifts to the upper stations as I have so much luggage + bicycle to take up if I go away - I can never get any help except from members of the public!

→

I think any new developments would be welcome especially for pedestrians. I nearly get run over every morning when crossing to the station and cars rush over red lights - where are the police or cameras then?

I hope you can help in my concerns,

Yours faithfully,

Judy Rose,

PS - Please could you deliver your leaflets to the Peabody Estate? - I'm sure everyone would support the campaign against Tower Blocks!
